Extending SAP Business One GUI	3.9	Passed	

2. Functional Requirements

Horizontal Multifunctional add-on that extend/tweak the usability of the SAP Business One Client. Each function is controlled by a main configuration that allows to turn on/off functionality.

The below test cases have been tested successfully through testing run.

2.1 Functional Test Cases

1	<p>Title: Installation of the add-on</p> <p>Action: Install the add-on based on the process described in the installation guide.</p> <p>Result: Add-on installed successfully.</p>
2	<p>Title: Activate / deactivate Functions</p> <p>Action: Go to configuration and activate a module</p> <p>Result: Function activated/deactivated (if first time metadata added)</p>
3	<p>Title: Add Function Buttons on Business Partner</p> <p>Action: Add configuration for form 134 and Choose some buttons</p> <p>Result: Business Partner Window have buttons with selected functions</p>
4	<p>Title: Add Mandatory Fields in A/R Invoice (Header + Line)</p> <p>Action: Add configuration to form 133 and set Customer Ref (Head – Item 14) and Profit Centre (Line – Item 38, Col 30)</p> <p>Result: Fields are mandatory</p>
5	<p>Title: Add Item Placement Tool Change on Item Master Data</p> <p>Action: Add configuration to form 150 and hide/resize some fields + add UDF and “draw” it to main window</p> <p>Result: Window get new layout</p>
6	<p>Title: Add Default Data</p> <p>Action: Configure add-on with default data (BP + Items)</p> <p>Result: Selected Default data is chosen when switch to add mode</p>
7	<p>Title: Toolbox: Document Tab</p> <p>Action: Activate some sub-modules in the Document-tab and test each of the functionalities</p> <p>Result: All functionalities should work according to end user documentation</p>
8	<p>Title: Quick Create</p> <p>Action: Activate the Quick Create and add a Business Partner</p> <p>Result: Business Partner is added</p>

9	<p>Title: Template System</p> <p>Action: Create a template for an Item and use it</p> <p>Result: Data from the template is selected when getting the template</p>
10	<p>Title: B1 Validation System - Message</p> <p>Action: Create a custom validation of the Customer ref. Number on a Sales Order (same ref. No must not be used twice for same customer)</p> <p>Result: Validation is in effect and not allowed</p>
11	<p>Title: B1 Validation System – SQL Report</p> <p>Action: Create a Function Button that launch a SQL-Report that can select items back to a Sales order</p> <p>Result: On button click the report is shown. On selection the items is selected back.</p>
12	<p>Title: B1 Validation System - Macro</p> <p>Action: Create a Function button macro on a BP Master Data Window that open a Sales Quotation, transfer the code, transfer the remarks and set a default customer ref value.</p> <p>Result: On click the Quotation window is opened, and data is transfered/set</p>
13	<p>Title: Master Data Manager - BP</p> <p>Action: Find all business partners of type customer and change their customer group</p> <p>Result: After execution all customers have the selected customer-group</p>
14	<p>Title: Master Data Manager - Items</p> <p>Action: Find all items and check the first 3 properties of all items</p> <p>Result: After execution all items have the 3 properties checked.</p>
15	<p>Title: B1 Search</p> <p>Action: Activate B1 Search and search for a contact person name</p> <p>Result: Verify that the connected BP for the contact person was in the search result.</p>

2.2 Performance / Load Test Cases

Does your Add-On process large volume of data?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
--	---

If Yes, please specify relevant test cases below.

3. Additional Service and Support

Does the third-party vendor offer consulting services for this product?	<input checked="" type="checkbox"/> yes <input type="checkbox"/> no
Remarks	

Does the third-party vendor offer training classes for this product?	<input checked="" type="checkbox"/> yes <input type="checkbox"/> no
Remarks	

Does the third-party vendor offer general problem support for this product?	<input checked="" type="checkbox"/> yes <input type="checkbox"/> no
Remarks	

SAP ICC Consultant Remark

It is not SAP ICC's intention to verify if or not, the functions/reports/documents generated from partner add-on is in compliance with local legal requirement. We only certify the behavior of the add-on as described in the test cases in this test report.
