

Sapphire Systems

One of the largest independent providers of financial accounting and business management solutions in Europe selects B1UP from Boyum IT

QUICK FACTS

Company

Name: Sapphire Systems

Location: United Kingdom

Services: Financial and Business Management
Software Solutions

Website: www.sapphiresystems.co.uk

With nearly 20 years of experience in delivering a range of leading business applications, Sapphire has realized the value of the B1 Usability Package and the ability to maximize the daily use of SAP Business One.

Sapphire became a reselling partner of Boyum IT in the beginning of 2008 and is having great success with the B1UP and their cooperation with Boyum IT.

Paul Rogers the Business Development Manager at Sapphire explains: *"The B1UP offers a lot of extra functionality at an affordable cost, and the support we receive from Boyum is first class"*.

When it comes to the benefits they have achieved by implementing the B1UP, Paul tells that the add-on allows them to really tailor SAP Business One around their clients specific requirements.

He particularly mentions the screen tailoring and field level security which generally makes the system much easier to use.

Paul finishes by saying, *"B1UP offers a great deal of functionality, at a reasonable cost. The product is very stable and robust, and it is a pleasure to work with the team at Boyum"*.
